TransferRite®
Product Cross-Reference

No matter the situation, TransferRite has a solution.

STANDARD PAPER: TransferRite standard paper products are most commonly used as application tape in the cut vinyl sign market, for pallet mask in textile screen printing, and in the protection of substrates during fabrication.

PREMIUM PAPER: TransferRite heavyweight paper products are most commonly used as premask in the RV, fleet and marine decal convertor markets and as application tapes in the cut vinyl sign market.

FILM BACKING: TransferRite film-based tapes are used as in a wide range of graphics applications including digital print protection, premask for air egress graphics and craft market application tape.
