Terms and Conditions

Information on physical characteristics is based upon tests we believe to be reliable. The values listed herein are typical values and are not for use in specifications. They are intended only as a source of information and are given without guarantee and do not constitute a warranty. Purchasers should independently determine, prior to use, the suitability of any material for their specific use. All technical data is subject to change without prior notice.

Description

This 8 Mil polypropylene has a specially formulated coating on the backside to force the media to lay flat on both sides. Has good tear resistance and it's microporous top coating gives it the ability to reproduce rich, accurate color. This is an ideal product for indoor signage.
